I have a table layout created using display:table. The top row has lots of cells with styles set, then the second row has cells, and so on. In the middle, I have a div with text, and this div is set to float:left; and is the same size as the second row cells, making it shrink to fit. Here's my jsfiddle: Now, if I add: border: 1px solid black; to the table, it works fine. It's when I add the 2px border to the float:left div, that it causes a problem. The div now starts to expand outside the table, and if I look at the inspector the rightmost cell in the table is gone, and the bottom 2 cells of the table are above the div. What am I missing? A: If I understand correctly, it should work if you change this: To this: jsFiddle example Q: How do I get 3da54e8ca3
